

T CLEANER 3

Manual Cold Cleaner

INTRODUCTION

This alcohol and water based cleaner has been formulated to allow manual degreasing by simple wipe-on application at ambient temperatures. Its use conforms to ISO 27831 A2 and AMS03-2C Method A2.

BENEFITS

- Suitable for all metals, concrete, as well as many wood, and plastic surfaces
- Easy to handle - effective cleaning for many surfaces
- Reduces static, to aid powder coating colour changes
- Does not leave soap behind so once dry can be over-painted by all paint types

FLASHPOINT

Below 21°C BS3900 Part A8.

COVERAGE

The consumption of the cleaner will depend on the care in use and the condition of the surfaces to be cleaned.

APPLICATION

Normally, effective cleaning is achieved by simple wiping methods. The following notes may assist in optimising the process whilst minimising any solvent emissions:

- T Cleaner 3 should be used to damp the cloth; it should not be poured onto the surface to be cleaned.
- Cloths that have not become too contaminated can be stored in an air-tight container and used for the initial cleaning of heavily soiled surfaces.
- Folding the cloth to form a pad and progressively re-folding to use a clean area of the material, using both sides, will ensure maximum economy.
- Before painting, remove traces of detergent by wiping with a clean damp cloth.

AIR DRYING

Most surfaces will be dry for painting within a few minutes. Should forced air drying of the cleaned surface be necessary, temperatures up to 125°C may be used.

EQUIPMENT

Impervious gloves should be worn, as much to protect the skin from the oils and other residues removed from the surface as from the solvents in the cleaner. Inhalation protection is not normally required in areas of good factory ventilation.

ENVIRONMENTAL CONSIDERATIONS

T Cleaner 3 contains VOCs (789 grams/litre).

SAFETY

Before use, refer to the Product Safety Data Sheet.

DISPOSAL

Dispose of in accordance with local authority requirements.

PRODUCT FAMILIES

The following products are referred to in this data sheet.

PRODUCT NAME	PRODUCT NUMBER
